It's time once again for the Team Pantera Racing pre-event countdown. Things are heating up in the garage as each participant gets ready for their next run down highway 318 through the Nevada desert. This year the team has the following folks on board and making final adjustments to their Pantera:

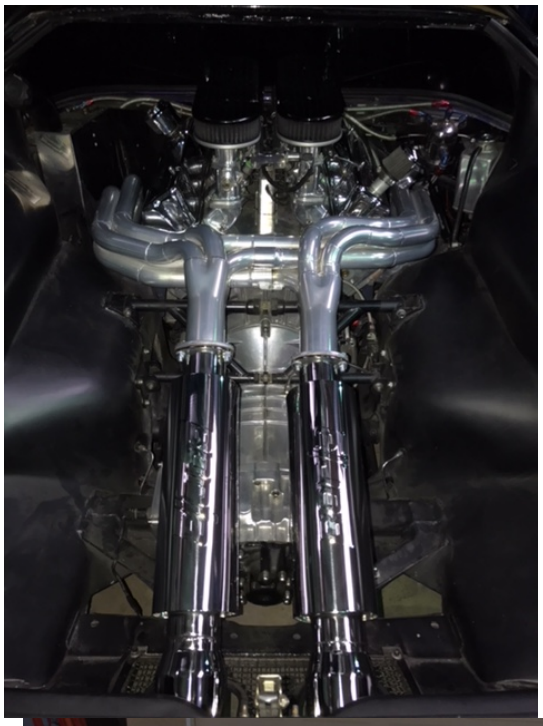

Mark Skwarek, returning with a recently refreshed engine will once again take on the highest speed bracket for the team this year.l

John Bentley has worked out the little gremilns that plagued his transmission bellhousing last year and has already made several test runs and is in the process of doing a final dyno tune to be ready for this year.

Rumor has it the President of the Pantera Owners Club of America, Gerry Romack will again join uis with some engine mods and other updates to his Pantera.

Not least of all will be Dennis Antenucci returning in his Pantera a with a newely refreshed engine, brakes and other top-secret go-fast goodies.

Rounding out the team, whether or not they race, will be Peter Menyhart, Asa Jay Laughton, Laurie Basille, David Adin and potentially one of our "Crazy Dave's" at large.
